

LED DIGITAL PERIMETER SPORTS SIGNAGE

LED DIGITAL PERIMETER SPORTS SIGNAGE

TV/Camera Ready & Flicker Free

digiLED use the highest quality, single bin, single batch LEDs and MBI drivers to deliver vivid, bright, and sharp imagery. High refresh rates, of >3840Hz, allow these images to be viewed on camera and TV with no flickering or interference.

Quick Knock Down Panels

Cleverly designed cabinets can be quickly 'knocked-down' in any event that emergency vehicle access or pedestrian access is required.

Weather Resistant Cabinets

Up to IP65 ingress protection on both the front and rear of the cabinet, allowing your outdoor application to show continuous video throughout the harshest of weather conditions and be protected from moisture and other particles.

Fast To Assemble

digiLED PITCH comes with convenient storage dollies for easy access to cabinets, as well as cleverly positioned apertures on each side, where lifting handles can be inserted for help with assembly.

In-built Data Redundancy

Should the signal at your event get interrupted, a dual backup path is available for continuous, unbroken visuals.

5 Year Warranty

As with all digiLED Premium products, PITCH comes with a 5 year warranty. Contact your local Service Lab via online RMA for our renowned fast turnaround.

FEATURES

Clean Lines

Power and signal cables are housed within the cabinet and accessed through side openings to ensure a safe and neat appearance.

Impact absorbing EVA foam tops for player and spectator safety.

Soft impact absorbing louvre design to protect screen surface

Concealed aperture for inserting lifting handles

Easy access with efficient release of vital components from the front, rear or top.

Aluminium cabinet design delivers a smooth, professional and consistent finish.

Easy swap of LED tiles from the front or rear.

SPECIFICATIONS

OUTDOOR

		PITCH 10
Physical Pixel Pitch (HxV)	mm	10
Pixel Resolution (Width/Height)	pixels/Panel	160 x 90
Standard Panel Size (W x H D)	mm	1600 x 900 x 95 (130 (TSB))
Standard Panel Area	m ²	1.44
Ingress Protection	(Front/Rear)	IP65/IP65
Maintenance Access		Front, rear and top options for servicing for all components
Standard Refresh Rate	Hz	≥3840
Uncalibrated Brightness*	nits	≥6000
Viewing Angle (H/V)	degrees	140/140
Contrast ratio	%	3000:1
Input Voltage	VAC	100~250
Typical Working Power Consumption**	W/sqm	219
Max Power Consumption**	W/sqm	729
Operating Temperature	degC	-30 to +60
Certification		CE - TBC, EMC
HDR***		(see foot note)

All specifications are subject to change without prior notification. E&OE.

Specifications are for standard system configuration. Contact your digiLED expert for detailed specification.

*The figures shown for brightness are standard guideline figures only and based on average test laboratory conditions.

** The figures shown for power consumption are standard guideline figures only and based on average test laboratory conditions.

***HDR: Subject to system configuration and processing.

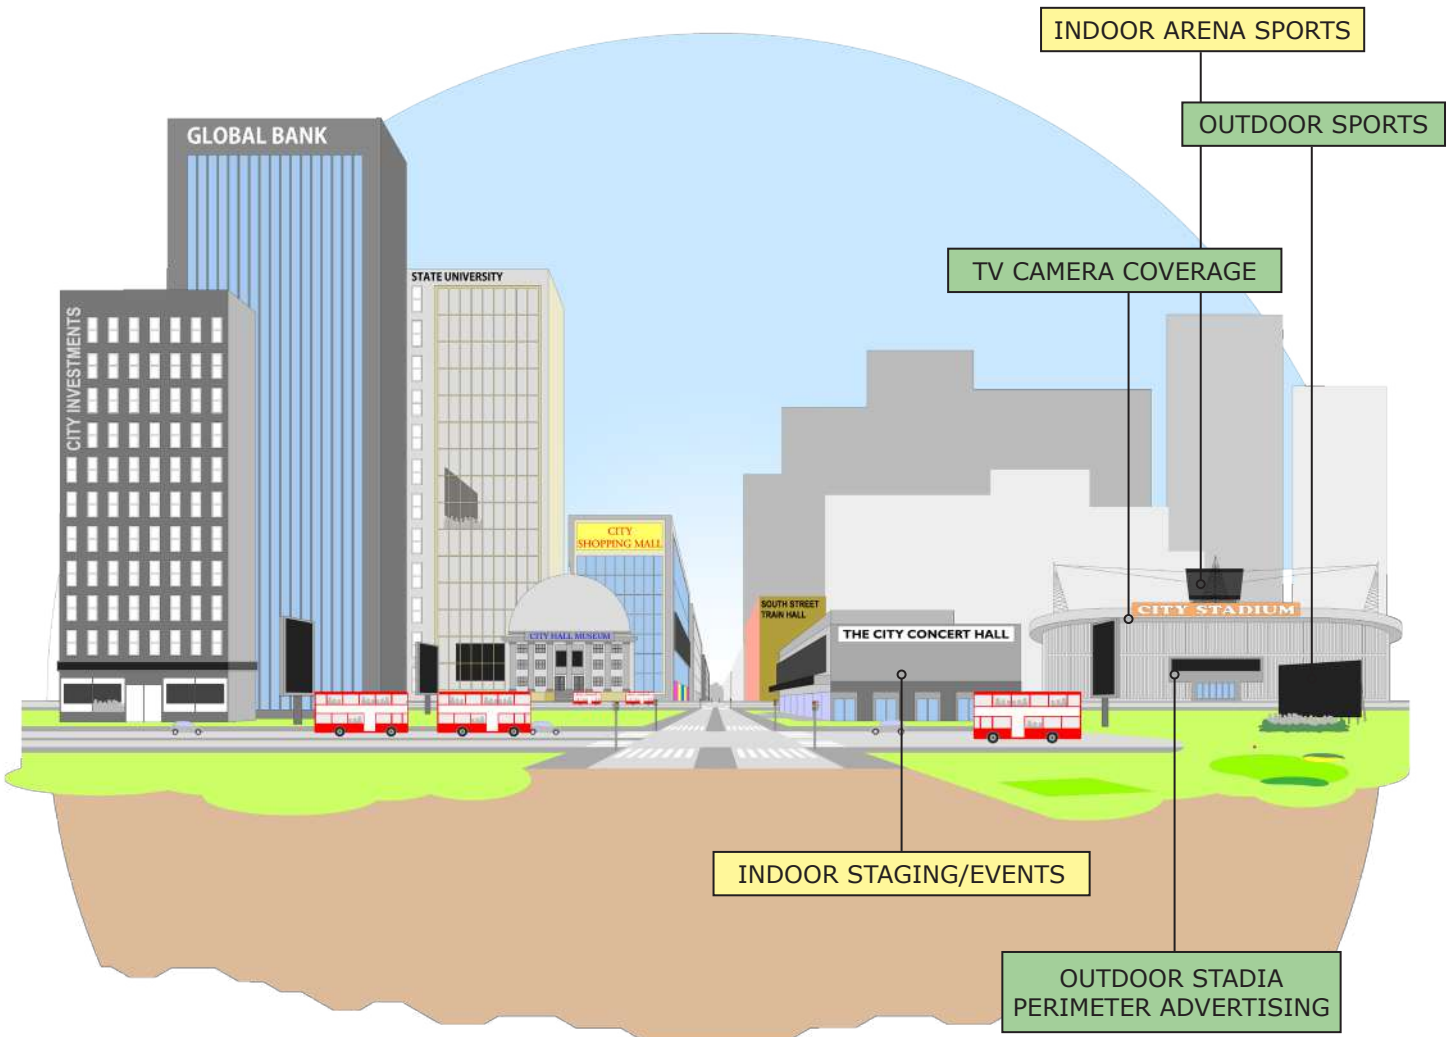

Easy Transport and Storage

Compared to flight cases, the sturdy and useful dollies allow for fast and easy access to cabinets, assisting with quick on-site installation. They can also be easily stored and stacked for convenience.

Our Ethos

Our goal is to do business with suppliers and customers whose company we enjoy and whose principles and values we respect.

We endeavour to be politely firm in our beliefs and steadfastly uphold our standards by doing the job correctly to produce quality products, supplied with loving care, to customers who cherish our systems and the enthusiastic, friendly expertise we strive to provide.

We love our work and are proud of our experience and our expertise. We want to do business with people who see the benefits of what we do and appreciate our input.

digiLEDers are keen to offer advice and an insight into our specialist knowledge without demanding a commercial return, if we can't convince customers of our value, we don't deserve their patronage.

Our Products

Huge, bright, vibrant, bespoke digiLED screens are designed using premium components, by seasoned LED experts, then crafted and assembled in selected specialist factories.

Assembly, production and testing is monitored by the industry's leading QC team, using a proven 228-step manufacturing QC process, paying meticulous attention to fine detail.

The resulting digiLED screens exhibit superior images, providing reliable performance throughout the 5-year warranty period and beyond. Supported locally by experienced, qualified, field and bench engineers.

digiLED quality just lasts.
